Pointwise interval direction summaries
A. Age−associated relative change
B. Equal−mortality age−shift velocity
Age (years)
75
50
25
1990
2000
2010
Calendar year
95% pointwise interval
Negative interval
Interval includes zero
Positive interval
Unavailable / low retention
Pointwise intervals are not simultaneous bands or a multiple−comparison procedure; screened iso intervals condition on retained draws.
